

How Will This Seminar Help ME?

Experience has shown that when clergy families have a good handle on their financial condition and future plans, then ministry is enhanced as the burdens of financial worries are lessened. This info-packed event shows clergy the tools they already have (but may not know it!). With these resources, clergy can prepare for their own financial, physical, and emotional wellbeing as well as that of their families and their ministry.

I'm just getting started in the ministry and am too busy to come. I'll just attend another event someday. Why is planning for your wellbeing less important than anything else? Come learn to maximize the benefits God has given you as a result of responding to the call of ministry.

Between paying my current bills and my fixed salary, I can't afford to plan for the future. Financial planning isn't about having money. It's about making your assets work hard for you. This seminar will show you what your benefits are already doing for you.

I'll be retiring in a few years. It's too late for me to do anything about all this. Financial matters can be complex. Often participants need to review them multiple times to feel confident about the many choices they have to make. Start building your confidence at this event!

You may delay, but time will not.
