

Display Information 2015

As the 2015 Annual Conference fast approaches we are excited by the many opportunities we'll have to embody this year's theme—*Serve*. To ensure your ministries have the greatest exposure at the annual conference we are working with the Communications Office to fully use the extensive audio and visual technology we'll have available through the space and through partners like MCR. **This means displays previously available through tabling will now be seen by everyone on the big screens in Wilmington! So, put away those tables (we're not using them this year) and pull out your cameras!**

As you prepare to tell your ministries in digital format, please contact the communications office with any questions or help that you may need: Mary Andreolli, mandreolli@nccumc.org. We are looking forward to serving with you!

In addition, if you would like to include handouts, or other such giveaways and trinkets, in the bags that will be handed out at Annual Conference, please send your items to the Conference Secretary's Office by May 15.
